

We are looking for churches to help us install safe water purifier systems in Puerto Rico as a result of Hurricane Maria in 2017. Orchard Park Presbyterian Church has been working with ministers and presbyters in PR, who have identified 6 sites in need of safe purifier systems. You can learn more about Fountains of Hope and their work by going to this site: <https://www.fountainsofhope.org/>

Fountains of Hope is located at Orchard Park Presbyterian Church. We are hoping to install 6 water purifier systems the week after Christmas. Each system costs \$5000.00. If your congregation would like to contribute to a purifier system or participate in the trip, please contact Shelly Wood at shellywood@orchardpark.org, or contact Bill Farrar at Fountains of Hope at (317) 289-9170. You can also give on line at [fountainsofhope.org/donate](https://www.fountainsofhope.org/donate) and indicate that you want proceeds to go to Puerto Rico Purifier Systems.
