

ATTENTION ALL PASTORS... and CONGREGATIONS

Maybe it is time to consider that pastors may be in need of a little “alone time” or time away to ‘recharge’? Six months of coping with this pandemic has been hard on everyone and pastors as well have been ultra-challenged while leading their congregations.

Geneva Center with its 235 wooded acres featuring miles of serene, forested walking trails, its large walking labyrinth which invokes contemplation and helps individuals center their thoughts, its quiet pond that promotes reflection, all this ...and more...is available to hard-working pastors for a few days & nights...a private place to ‘unwind’ first, then ‘recharge’ before returning to their challenging role and responsibilities as a Pastor.

Already several pastors have chosen Geneva Center for a personal retreat...a place of quiet solitude and a place close to Nature amidst God’s creation. These pastors indicated it really was time away that was appreciated and much needed. So, we wanted to make all pastors and congregations aware of this option in case they might be in need of a Pastor’s Respite.

Geneva Center has been untouched by the COVID and has put all cleaning and other protocols in place to do all it can to assure full compliance and thus safety for our guests. (If a pastor, pastor & spouse or pastor & family are the only ones in a specific area, social distancing is assured.) 😊

To explore dates and options, give Cathy Adley, Operations Director a call at 574-223-6915 or email her at Cathy@genevacenter.org. She will be glad to assist you with arrangements for a Pastor’s Respite.
